

# McAfee Endpoint Encryption v6.1 for PC Administration Course

The McAfee® Endpoint Encryption for PC Administration course from McAfee University enables attendees to receive in-depth training on the full benefits of our endpoint encryption product. Enabling administrators to fully understand the capabilities of their security solution not only reduces the risks of misconfiguration, but also ensures an organization gets the maximum protection from their installation.

## Highlights

- Learn how to install McAfee Endpoint Encryption for PC
- Synchronize with Microsoft Active Directory
- Configure the policy to protect PCs

## What You Will Learn

At the end of this course, attendees should understand the capabilities of McAfee Endpoint Encryption for PC and have the ability to install and manage it using McAfee ePolicy Orchestrator® (McAfee ePO™) software.

## Exercises

All topics are supported by hands-on exercises specifically designed to increase knowledge retention and provide experience needed to install, configure, and manage McAfee Endpoint Encryption for PC via McAfee ePO software.

## Who Should Take this Class

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course. It is recommended that the students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of encryption technologies.

## Duration

Four days.

## Student Takeaways

Course manual, certificate of completion, McAfee backpack.

## Course Outline

Day One	
Module 1:	McAfee ePolicy Orchestrator Administrative Overview
Module 2:	Installing the McAfee ePO Server
Module 3:	McAfee ePO Navigation
Module 4:	The McAfee Agent
Module 5:	Overview of Encryption Technologies
Module 6:	Introduction to McAfee Endpoint Encryption for PC
Day Two	
Module 7:	Installation of McAfee Endpoint Encryption for PC on the McAfee ePO Server
Module 8:	Configuration of Active Directory Settings
Module 9:	Configuration of McAfee Endpoint Encryption for PC Users
Module 10:	Deployment of McAfee Endpoint Encryption for PC Client Components

**Course Outline** (continued)

Day Three	
<b>Module 11:</b>	Configuration of Policies
<b>Module 12:</b>	Overview of Reports and Dashboard Configuration
<b>Module 13:</b>	Configuration of McAfee Endpoint Encryption for PC Users
<b>Module 14:</b>	Troubleshooting of Installation Issues
<b>Module 15:</b>	Recovery Configuration
Day Four	
<b>Module 16:</b>	Disaster Recovery with McAfee Endpoint Encryption TECH
<b>Module 17:</b>	McAfee Endpoint Encryption for PC Upgrade and Uninstall
<b>Module 18:</b>	McAfee Endpoint Encryption for Mac Comparisons
<b>Module 19:</b>	McAfee Endpoint Encryption for Files and Folders Comparison

**Suggested Next Course(s)**

- McAfee Host Data Loss Prevention Administration
- McAfee Vulnerability Management Administration
